3. General description of certification levels:

Level 1 personnel are qualified to carry out operations according to written instructions. ICorr Level 1 certified personnel have demonstrated the competence to:

- a) Set up specific equipment
- b) Carry out tests and perform inspections against written criteria;
- c) Record and classify of tests and inspection against written criteria;
- d) Report the results.

Level 1 personnel have **not** demonstrated competence in selecting the extent of inspection or testing required, appropriate inspection or test methods to be used, nor for the interpretation of specification requirements.

Level 2 personnel are qualified to perform and direct inspection or testing operation according to established or recognised procedures and they have demonstrated competence to:

- a) Choose the extend of inspection or testing to be used (where agreed procedures allow);
- b) Choose the inspection and test methods to be used (where agreed procedures allow);
- c) Set up and calibrate inspection or test equipment
- d) Perform and supervise inspection or test tasks
- e) Interpret and evaluate results according to applicable normative documents;
- f) Define the limitations of application for common test methods
- g) Understand and transform normative document requirements into practical instructions adapted to the actual working conditions;
- h) Prepare written test instructions
- i) Organise and report the results of inspections or tests.

Level 3 personnel are qualified to:

- a) Direct any inspection or test operation for which they are certified;
- b) Assume full responsibility for an inspection or test facility and staff;
- c) Establish and/or validate work instruction or procedures;
- d) Interpret normative documents;
- e) Designate the extent of inspection and the particular test methods and procedures to be used.

Level 3 personnel have demonstrated:

- f) Competence to interpret and evaluate inspection or test results in terms of existing normative documents;
- g) Possession of a scope and level of knowledge sufficient to enable the individual to select inspection methods, and to assist in the establishment of inspection and test criteria where none are otherwise available;
- h) A general familiarity with all coating materials, application methods and associated areas;
- i) The ability to guide personnel below Level 3.

4. A wallet card is also issued with this certificate which may identify any other ICorr Certification held.

**PLEASE KEEP THIS CERTIFICATE IN A SAFE PLACE
A FEE WILL BE CHARGED FOR DUPLICATES WHICH WILL ONLY BE
ISSUED AFTER EXTENSIVE ENQUIRIES**
